EDUCATION

DOCTORATE – PhD. (Dr. rer. nat.)	09.2010 - 11.2013
Universität Wien, Austria	
Specialization: Experimental physics and Material sciences	
Thesis title: "Theory and Spectroscopy on functionalized graphene and GICs"	
PhD. Nanoscience and Nanotechnology	08.2008 - 08.2010
Institute for Scientific and Technological Research of San Luis Potosí (IPICYT), Mexico	
Specialization: Material Sciences and Nanotechnology	
Thesis title: "Integration of nanocarbon structures and nanotubes into micro-fabricated magnetic devices"	
B.Sc. Mechatronics Engineering (IMT)	05.2001 – 06.2008
Tecnológico de Monterrey, Mexico	
Specialization: Mechatronics	

WORK EXPERIENCE

Yachay Tech University, Ecuador	09.2016 - current
School of physical sciences and nanotechnology, Prof. Dr. Gema González (Dean)	
Position: Assistant Professor - Head of Nanotechnology	
Projects and activities:	Functionalized nanostructured materials for potential electronic, and optoelectronic applications. Investigation of nanostructured clay as a potential housing material. Supervisor of Bachelor, and PhD students. Lecturer in the bachelor's nanotechnology specialization. Tenure track committee council representative. Head of the Nanotechnology department. Coordination of cooperative research within Germany, Austria, Hungary, Brazil, Ecuador and Mexico. Hiring and administration of teaching loads and lecturing within the Nanotechnology Engineering. Purchasing and design of laboratory equipment for specialized courses in Nanotechnology. Characterization and lab purchasing advisor. Peer-review journal referee. Participation in international conferences, workshops and seminars.

Tec de Monterrey, México	02.2022 – 06.2022
Faculty of Sciences, Engineering and Construction, PhD. Carlos Ávila (Dean)	
Position: Invited International Professor	
Projects and activities:	Lecturer of Nanotechnology Modular Section.

Universidad UTE, Ecuador**02.2019 – 04.2020**

Faculty of Sciences, Engineering and Construction, PhD. Carlos Ávila (Dean)

Position: Visiting Professor and Research representative

Projects and activities:

- Nanostructured materials for construction.
- Nanostructured clay research for construction.
- Teaching courses within Civil Engineering.
- Collaborator in the development of the Advanced Materials Center - UTE.
- Developer of the lines, groups and research projects within the Faculty.
- Member of the UTE editorial committee.

Freie Universität Berlin, Germany**04.2014 – 06.2016**

Experimental Physics institute, Prof. Dr. Stephanie Reich (Head)

Position: Postdoctoral Researcher, INTERNATIONAL SELECTION PROCESS BY MERITS – Working contract position

Projects and activities:

- In-situ* graphene and carbon nanotubes spectroscopy under inert and high-vacuum conditions.
- Setting up and optimization of cryogenic systems for temperature dependent *in-situ* Raman analyses.
- Development of a multipurpose high-vacuum set-up for *in-situ* chemical reactions and Raman spectroscopy.
- Investigation of supramolecular interactions nanostructured multilayered materials.
- Coordination of research projects within Germany, Austria, and Brazil.
- Supervision of Bachelor, Master and PhD students.
- Participation in international conferences, workshops and seminars.

Universität Wien, Austria**09.2010 - 11.2013**

Electronic Properties of Materials, Prof. T. Pichler (Head)

Position: Researcher, INTERNATIONAL SELECTION PROCESS BY MERITS – Working contract position

Projects and activities:

- Synthesis and Characterization of Graphene, "Graphite Intercalation Compounds", and Carbon Nanotubes.
- Multifrequency Raman spectroscopy, photoelectron emission spectroscopy (XPS, ARPES, UPS).
- Synchrotron radiation experience at BESSY II - Berlin, Germany.
- Basic ab-initio calculations by using ABINIT software.
- Guidance of bachelor and master students.
- Participation in international conferences, workshops and seminars.

Institute for Scientific and Technological Research of San Luis Potosí, IPICYT, Mexico**08.2008 - 08.2010**

Advanced Materials, Prof. M. Terrones (Head)

Position: Researcher, Doctoral Candidate, Focus Area Nanoscience and Nanotechnology

Projects and activities:

- Synthesis and characterization of multi-walled carbon nanotubes and intercalation compounds.
- Electron microscopy (HRTEM, JEOL and UHR-SEM).
- Dual Beam FIB FEI-HELIOS 600 NanoLab and Micro-Raman RENISHAW.

SUMMARY OF SCIENTIFIC CONTRIBUTIONS

- (19) Peer review publications: (1) Nature Comm. (1) Appl. Phys. Lett. (2) ACS Nano (1) Carbon (1) Angew. Chem. (1) Phys. Rev. B (7) Phys. Status Solidi B. (2) JACS (2) Scientific reports (1) Materials
- Mean journal impact factor: **8.94**
- (1) Additional publications: (1) VI encuentro Participación de la Mujer en la Ciencia
- Citations **603**; h-index: **12** (Google scholar)
- Journal referee: Nature Comm., Sci. Rep., Carbon, Phys. Rev. B, Materials Express and Phys. Status Solidi B
- Funding accepted ~100,000 USD Internal Grants, National Polytechnic School (EPN) Ecuador 2018
- Funding received ~25,000 Euro DRS Fellowship at NanoScale, Free University Berlin 2014, Free University Berlin 2020

AWARDS, FELLOWSHIPS, SCHOLARSHIPS & HONORS

"Participation Fellowship", IWEPNM 2019 winter school (Austria)	2019
Outstanding Contribution in Reviewing award 2017 (Carbon Journal-Elsevier).....	2017
"Millie Dresselhaus Poster Award", NT17 Conference (Brazil)	2017
POINT Marie Curie Fellowship Award 2014 (Germany)	2014-2016
Best Poster Award IWEPNM 2013 (Austria)	2013
"Insignia Bicentenario 2012" International Award (Mexico)	2013
Poster Award - Scientific merit and visual appeal (Hungary)	2012
Doctoral Fellowship FWF-I377-N16 and OEAD Amadeus Program (Austria)	2010-2013
Doctoral Scholarship CONACyT (Mexico)	2008-2010
Bachelor Scholarship (45 %) Tecnológico de Monterrey (Mexico)	2001-2008
Bachelor Scholarship EDUCAFIN (Mexico)	2001-2008
First Place "Ingeniería Expone" Advanced prototype	2007
Third Place "Ingeniería Expone" Advanced prototype	2007
Undergraduate Scholarship (90 %) Tecnológico de Monterrey (Mexico).....	1998-2001

GRANTS AND PROJECTS

Alumni Program Freie Universität Berlin “Surface-enhanced Raman scattering induced by triangular silver nanostructures.”

Experimental Physik, Freie Universität Berlin, Germany

2021 (4 weeks)

INTERNATIONAL COLLABORATION PROJECT via SFB 953 „Synthetic Carbon Allotropes“

Friedrich-Alexander-Universität, Nuremberg-Erlangen, Germany

2014- up today (4 YEARS ongoing)

DRS POSTDOC FELLOWSHIP PROJECT In-situ graphene and carbon nanotubes spectroscopy

Experimental Physik, Freie Universität Berlin, Germany

2014-2016 (2 YEARS and 2 MONTHS)

MARIE CURIE – FWF PROJECT „Theory and Spectroscopy on functionalized graphene“

Institut Elektronische Materialengenschaften de fakultät für Physik, Universität Wien, Austria

2010-2013 (3 YEARS)

JUNIOR PROJECT GRANTED (US\$80,000) „Materiales nanoestructurados: Una aplicación en el reforzamiento de materiales de construcción vernáculos del Ecuador“ – „Nanostructured materials: an application to reinforce vernacular construction materials in Ecuador“

National Polytechnic School (Spanish: Escuela Politecnica Nacional - EPN) Quito, Ecuador

2018-2020 (2 YEARS)

SEED PROJECT GRANTED (US\$15,000) „Estudio numérico computacional de la meso-escala del hormigón; desarrollo de tecnología discreta para la caracterización mecánica de materiales compuestos“ – „Computational numerical study of the meso-scale of concrete; development of a discrete technology for the mechanical characterization of composite materials“

National Polytechnic School (Spanish: Escuela Politecnica Nacional - EPN) Quito, Ecuador

2018-2019 (1.5 YEARS)

INTERNAL PROJECT GRANTED (US\$5,000) „Optimización del proceso de síntesis de óxido de nitruro de boro y carbono (BCNO) a partir de urea y ácido bórico“ – „Optimization of the synthesis process of boron carbon oxynitride (BCNO) from urea and boric acid“

National Polytechnic School (Spanish: Escuela Politecnica Nacional - EPN) Quito, Ecuador

2018-2018 (1 YEAR)

Undergraduate Projects:

1. Design and manufacture a four degrees of freedom robotic arm intended for the relocation of light weighted elements with a maximum of 500 gr.
First Place Award for “Advanced Engineering Prototype” at “Ingeniería Expone 2007” (ITESM, Leon, Mex. 2007)
2. Design and manufacture of an intelligent parking lot using proximity sensors and PLC technology.
Second Place Award for “Engineering Prototype” at “Ingeniería Expone 2006” (ITESM, Leon, Mex. 2006)
